ALL-NEW SILVERADO HD

2020 EQUINOX

CHEVROLET

See how Chevy continues to evolve with remarkable innovations now at the Twin Cities Auto Show! Make sure to check out our award-winning lineup available with advanced safety technologies, impressive connectivity and engines that excite with incredible power and efficiency. Experience them for yourself and see why more and more people are switching to Chevrolet.

ALL-NEW SILVERADO HD

Introducing the strongest, most capable Silverado HD ever. The All-New Silverado HD comes ready to work. With two heavy-duty powertrain options, new technologies for confident towing, and a larger, stronger and more functional Durabed, it was built to take on the hardest jobs you can throw at it.

THE 2020 EQUINOX

With Chevrolet's infotainment technology, active safety features, and fun-to-drive performance, this versatile SUV is ready for your next adventure. Load it up with 63.9 cu. ft.[1] of max cargo space and get moving with a choice of two turbocharged engines. Add in available all-wheel drive and you'll have the capability to go just about anywhere – at any time. So, what are you waiting for?

1. With second row seats folded flat. Cargo and load capacity limited by weight and distribution.

GET AUTO SHOW SAVINGS ON AN EXCITING CHEVY LINEUP!

SEE THE SHOW, THEN AUDITION THE STARS!

Want a closer look? Then come on out and take the wheel at your Select Heartland Chevy Dealers. Where you can choose from an impressive selection of award-winning cars, trucks and SUVs. That's including the versatile 2020 Equinox and the All-New Silverado HD. The strongest, most capable Silverado HD ever. Come in today and see for yourself why Chevrolet is the #1 selling brand in the Twin Cities.[1]

Welcome to the 2020 Twin Cities Auto Show

Welcome to the 2020 Twin Cities Auto Show sponsored by Speedway! We constantly strive to update the Twin Cities Auto Show to reflect current tastes and trends. This year we believe we have hit the right elements to show off the diverse nature of the Minnesota consumer market.

For the first time ever, the Twin Cities Auto Show is hosting two indoor tracks. The always popular Camp Jeep will be joined for the first time with the RAM Truck Territory. Both indoor riding experiences are designed to give attendees a feel for the performance of their respective trucks and SUVs. You can get to these off-road courses by entering through the RAM Lobby – and you can check out the great RAM trucks on your way.

But we're not done with trucks there. The ballroom across from the main floor has been converted into Truck Country. Here you will find the most popular pickup trucks, SUVs and crossovers in Minnesota. It's a tall order considering that Minnesotans lead the nation in sales from this category of vehicles.

But we haven't forgotten about sedans, electric vehicles or the luxury market either. Inside the main Show floor, you'll find the best and latest vehicles offered by today's major manufacturers. There is no other place or time when you can compare the same type of vehicle from one brand to the next, all under one roof.

This year's Car of the Show is the Acura RDX. The RDX is the #1 Luxury Compact SUV and has received numerous top safety ratings. Check out the infotainment system that is simple to learn and simple to use with all new fingertip controls, equipped with both Android Auto and Apple Car Play capabilities.

Luxury vehicles are back on the main floor in their own space surrounded by the luxury brand displays.

If you're electric vehicle (EV) curious, or want to know more about new EV technologies, the Xcel Energy Drive Electric Experience is for you. Visit the main floor display to take a test drive behind the wheel of an EV, talk statistics with MidwestEVOLVE, or learn about charging, cost savings, clean energy benefits While you're there check out the simulated garage where the charging set up for your testing.

Don't miss the many promotions, contests and giveaways found all over the Auto Show. There's something for kids and adults every day. Go to our website at www.twincitiesautoshow.com for all the opportunities.

Finally, our best advice is always to listen to the presentations from the professional spokespeople on the features of their vehicles. And if you have a question - stop and ask. They are there to make sure you get the most out of your visit.

Twin Cities Auto Show is proud to be the largest consumer show in the Upper Midwest and we are glad you are a part of it. We really enjoy bringing this big dynamic Show to you every year. We hope you and your family will enjoy it as well.

Thanks for coming to the 2020 Twin Cities Auto Show.

Luxury Lane

As one of the most popular attractions at the Twin Cities Auto Show, Luxury Lane has established itself as a must-see for both automotive enthusiasts as well as casual viewers. Located on the main floor, near the luxury displays, these elegant creations separate themselves from the pack. If you've seen it before, you haven't seen this!

With vehicles combining to an over $2,000,000 value, you'll be surrounded by the best the industry has to offer. Immerse yourself in the world of luxury and smooth rides! Previous years have included participants such as Alfa Romeo, Aston Martin, Audi, Bentley, Cadillac, Infiniti, Jaguar, Land Rover, Lexus, Lincoln, Lotus, Maserati, and Mercedes.

So... You're Buying Your First Vehicle?

Written by: Kris Palmer

In this convenience-is-king age, shopping has never been quicker. But motor vehicles differ from other purchases in critical ways. They're far more expensive, for one, and we rely on them more than on most any other possession. With a few exceptions, wherever you go — across the days and miles and years — your vehicle goes with you. It carries you, your passengers, pets, tools, supplies, recreational gear, and whatever else your work and habits require. A majority of vehicles can serve some of your needs. A smaller selection will cover all key criteria.

Let's look carefully at a range of concerns to help shape your opinion of the best buy for your first vehicle. (For convenience, "cars" will include pickups, SUVs, and minivans.)

WANT VERSUS NEED

We live in a motorized world, where vehicles of all shapes and sizes cross our path. Out in these wilds, sudden attraction can take hold. Yet a car's lines, color, wheels, lighting, advertising, or stance may entice you for reasons unrelated to your practical goals. Since this is a first car – not a second or seasonal one – practicality counts. We're not abandoning esthetic appeal — just setting it aside a moment to look closely at your needs.

Consider first where you drive *daily*. If your vehicle choice can't crush your daily needs, the car/owner honeymoon will be short indeed. Maybe your average day covers five smooth miles to and from a broad driveway to a wide, flat parking lot. If so, most any vehicle can handle it. But maybe you're frequently on farms or constructions sites, where gravelly, bumpy, uneven, muddy, rocky, rutted paths traversed by flooded streams are common. There, higher clearance, good suspension travel, and the ability to power all four wheels may be desirable.

Or maybe your day involves consistent long drives, small garages, cramped parking ramps or the frequent need to parallel park. For those scenarios, size, nimbleness, visibility, and fuel economy may be important factors increasing your vehicle's practicality and lowering your stress level.

And how many people and goods must you regularly carry? Briefcases, backpacks, coffee mugs, and umbrellas are small; cellos, drum sets, amplifiers, infant seats, bags of soccer balls, and sheets of plywood take up more space. Be thorough in assessing what your vehicle will have to move. Regular passenger and cargo needs must be met. Also, be honest in your assessment. A random chore or daydream — like cutting up and hauling away that downed tree at the cabin you've been thinking about for six years, or four-wheeling deep into the wilderness to pen a life-changing autobiography — may not be important or likely enough to guide a purchase. For the rare, non-repeating task, it's easy enough to borrow or hire a suitable machine or worker.
Consider your hobbies, too — the ones you really care

about. Do you enjoy camping? Are you a bicyclist? Is there a windsurfer or kayak in your home that will definitely be accompanying you to lakes or rivers this summer? There are many rack options for such gear, and some of it can fit inside certain vehicles. Think of how, and how often, you plan to transport essential hobby gear. Ask friends who share your hobby for their experience with vehicle designs and features that work especially well for those purposes.

If you travel with dogs, consider their needs, too. Bounding, drooling, wet, muddy, sandy, critters with sturdy claws or large cages may further alter your requirements for ideal spaces and surfaces in a new vehicle, if you regularly have them in it.

Eye each car you're considering as your first for its ability to serve your genuine, recurring needs. Now let's refine those perceptions with your personal sense of comfort at the wheel.

FINDING BASIC COMFORT

In addition to meeting objective criteria, you want a vehicle that feels right. This feeling derives from your personal impressions as to a host of characteristics. It's a vague concept, so here's an example: at some point, you've driven a vehicle owned by someone else — a parent, boss, roommate, neighbor. The vehicle worked fine for your errand, but when you got out, you were happy to be done with it; it just wasn't "you." That vague unsatisfied feeling is something you want to avoid in your own new purchase.

A fine laboratory for exploring subtle preferences is the vehicle you drive now. Rather than reflect on it briefly, from memory, take time to study it and note your impressions. Seriously — take a tablet or a laptop and plan to spend some time assessing your likes and dislikes and writing them down. Remember, these impressions will inform a purchase of many thousands of dollars.

First, just look. Study the profile front to back. What comes to mind? Do you like the shape? What would you change? Is it high or low or medium height from the ground? Does it hold your groceries, pets, infant car seats, and passengers reasonably without hassles? Write down what you like, don't like, and wonder about changing.

Now get in. Look at that motion on its own. Did you lower yourself in, slide straight across, or climb up into the cabin? Is that movement easy and comfortable? Is it an easy and comfortable movement for your regular passengers?

Sit in the driving position. Try to separate yourself from familiarity with this spot and analyze it. You have a view out the windshield, through the side windows, and out the back. Look out each spot now. If any of those views prompts positive or negative feelings, write down what you like or don't like — for example, "good forward visibility," "hard to see out back," "blind spot." Consider the view out the windshield. You may have a sense of sitting low or high. Do you like it? Think about pulling into a parking spot. Do you worry about hitting the curb? Can you tell where the nose of the car is from the driver's seat? If no, has that bothered you?

Consider the seats. Do the controls allow you to position them just where you want them to be – the right height, backrest and headrest angle, and distance from the steering wheel? Consider long trips you've taken, too. Is there some position for your legs or arms or back you wish you could achieve on a long trip, but can't – or can. Write it down.

Now scan the interior, noting positive or negative feelings. Can you see the gauges well? Do you like where they are? Does anything you need to view regularly pull your vision down, away from the road? Are cup holders and auxiliary plugs for things like your cell phone easy to find and use? What about the sound, entertainment, or navigation systems, if anything, do you particularly like or dislike? Record the impression.

Now evaluate the interior in light of your work, errands, chores, hobbies, passengers. As you haul groceries or dry cleaning or kids or pets or supplies or sporting goods, what works particularly well or poorly with the seating and spacing and dimensions at hand? Open the trunk or hatchback or tailgate and ask the same questions, matching your actual uses and requirements with the space and noting anything you would like to change.

Finish the following sentences about your current vehicle: *"I just wish it had (or could)..."* and *"I like it, but..."* With your new purchase, consider adding the first feature and removing whatever follows *"but."*

FINAL RESEARCH

Going out to dealerships and test-driving new machines is a lot of fun. It can also become overwhelming, though, if shopping time is in short supply. To assist in your quest, virtually every manufacturer has a website that will identify each vehicle it offers, with all of its most

relevant specifications. Armed with your list of needs and preferences, you can make calculated judgments on what particular models appear to meet your criteria. This is also the place where you can start exploring more emotional elements we mentioned before — like colors, wheel styles, and interior features and options.

In addition, a few players in the car game offer what they describe as calculators for overall costs to buy and own particular vehicles, for example for five years. If you search on the concept of 'car cost calculator,' you will find some examples. The figures generated for particular models and configurations are not certain numbers, but estimates for comparative use. Especially if you're operating on a lean budget, it's valuable to anticipate the full cost of ownership, including purchase, fuel, maintenance, financing, and insurance costs.

Finally, you may be interested in towing something — a boat, horse, camper, utility trailer. In that scenario, wheelbase is important to stability. Shorter vehicles, regardless of horsepower, are not as safe for towing as something with a longer, more stable, wheelbase. Hitch type can also increase stability. Do your research for the safest approach to avoid the trailer wagging the truck.

TO BUY OR LEASE?

With your functional and spatial needs, your likes and dislikes, your budget, and your list of potential vehicles whittled down, there's a final point to ponder: should you buy or lease? A majority of shoppers do the former (roughly 70 percent), and thus odds suggest that you will too. Still, both options are out there, so it's good to have a sense of why people choose one direction or the other.

The defining feature of a lease compared to buying is its limited duration. Most leases last two or three years. The car shopper is paying for use of the car for this period. When the lease term is over, the driver returns the car to the dealership. At that point, the lessee may have the option to buy the car, but often at a rate higher than the same car can be found on the used-car market. Otherwise, the deal is over and the driver has no further use of the vehicle.

This brief time of possession under lease deals best serves people with a strong interest in always driving a new or nearly new car. This group might include drivers who are frequently seen with their cars as part of their business and those who believe a new car enhances their professional image. Drivers with a keen interest in technology, who fixate on the latest operational and entertainment gadgetry, may also be more satisfied with a lease arrangement, which keeps them perpetually in or near the state of the art.

The other end of the spectrum — drivers planning to wring the last payment-free mile out of a vehicle — is for buyers. Over the long haul, buying is usually cheaper. Your monthly payments will be more while you make them — because the payment is based on the full purchase price, not just the depreciation the vehicle experiences during a lease term — but once the vehicle is paid off, they cease and you retain the vehicle's residual value.

Many shoppers' concerns may lie between these extremes. In that event, all the benefits and drawbacks deserve consideration. With a lease, you pay less per month, but have nothing to sell or trade at the end of the lease. Your annual mileage will be limited, such as to 10,000 or 12,000 miles, and you will pay a per-mile penalty for exceeding that amount. There will also be a penalty for early termination. You will be permitted limited wear-and-tear, but may be charged for anything unusual. On the plus side, the full period of your use should fall within the manufacturer's warranty, freeing you the risk of paying for major repairs.

Further, not all deals are the same for all vehicles. Complicated market forces can cause sales and dealer incentives that generate real savings for consumers on leases and purchases. Use internet resources to search for and calculate the best sales prices, lease terms, insurance rates, lending rates, and to compare lease and purchase costs.

Know prices and rates when you begin shopping and negotiate for the best deal, whether you purchase or lease. And have fun — buying a first car is a once-in-a-lifetime experience!

Kris Palmer has written hundreds of articles on car and motorcycle topics for print and online publications. He is the author of six books, including Dream Garages, Fast and the Furious: the Official Car Guide, Survivor: the Unrestored Collector Car, and the recent Hot Wheels, 0 to 50 at 1:64 Scale. He lives in Minneapolis.

One Person. One Price. Fast & Easy.

For a quick, stress-free experience you've come to the right place.

There's no reason that buying a car needs to be a confusing, nerve-wracking, day-long ordeal. We wanted to simplify the process. That's why we pioneered a One Person, One Price philosophy that ensures you'll get a great deal in record time. To find your next vehicle, visit Walser.com.

Curb Weight, lb	3880	4134
Transmission	8A	8A

Aston Martin has brought a new dimension of race-inspired dynamism and performance to the DB11 family with DB11 AMR. Replacing the V12-engined DB11 as the flagship of the range, the DB11 AMR boasts greater power, increased performance, enhanced driving dynamics and a more characterful exhaust note, together with a suite of exterior and interior enhancements. At the heart of the DB11 AMR is Aston Martin's twin-turbocharged 5.2L V12, which produces 630 hp, 30 hp more than the outgoing DB11 V12 and 127 hp more than the V8-engined DB11. A top speed of 208 mph makes it one of the world's fastest GT cars.

*See dealer for Rapide E pricing

Aston Martin introduces its first all-electric model - the Rapide E. Spearheading the move into the electric arena, Rapide E is powered by an 800V electrical architecture battery – encased in carbon fiber and Kevlar casing – with a 65kWh installed capacity using over 5600 lithium-ion 18650 format cylindrical cells. This battery system powers two rear-mounted electric motors producing a combined target output of just over 610 hp and a colossal 700 lb-ft of torque. The Aston Martin Rapide AMR is built for speed with a legendary V12 that propels the AMR from 0-60 mph in 4.2 seconds. AMR production is limited to 210 cars.

Bentley Motors introduces the world's most advanced luxury Grand Touring sports sedan – the all-new Flying Spur. Whether driving or being driven, the all-new Flying Spur offers a unique combination of limousine luxury and sports sedan performance, blending bold new road presence with world-leading interior quality and design, plus cutting-edge customer-focused technology. A 5.1-inch longer wheelbase means the new Flying Spur features a spacious and luxurious cabin that offers peerless comfort and refinement. The interior can be further enhanced with a panoramic glass sunroof stretching the full length of the roof.

Handcrafted in England, it takes around 400 hours for a team of highly skilled artisans to build each Mulsanne at Bentley's Crewe headquarters, where each one of Bentley's flagships is built from 'the ground up'. The new Mulsanne Speed, featuring a more powerful version of Bentley's mighty 6.8L twin-turbo V8 engine, is truly tailored for the driver, while the Bentley Mulsanne Extended Wheelbase is designed for customers with a preference for being driven, offering a first-class air-travel experience for the road. The 9.8-inch extension of the wheelbase is entirely to the benefit of rear-seat passenger legroom.

CRAFTED FOR THE NEW FRONTIER

THE LEXUS UX

A new frontier has risen. It calls for a vehicle that considers corners as much as curves. Traffic as much as the open road. A vehicle like the Lexus UX. Crafted with a class-leading 17.1-ft turning radius.[1] Amazon Alexa[2] compatibility to empower your drive. Android Auto™[3] to help you remain focused, connected and entertained. And Apple CarPlay®[4] to give you a smarter, safer and more convenient way to use your iPhone®[5] in the car. The Lexus UX and UX Hybrid, with Lexus Safety System+ 2.0,[6] our most advanced standard safety system ever. This is the new frontier. And these are the crossovers crafted to conquer it.

Torque, lb-ft	512
EPA est. mpg	76 MPGe
Drive wheels	awd
Wheelbase, in	117.7
Curb Weight, lb	4784
Transmission	1A

The 2020 Jaguar I-PACE carries over after its introduction last year. The first all-electric SUV from Jaguar, the I-PACE delivers sports car performance, AI-enabled technologies and five-seat SUV practicality. Two Jaguar-designed concentric electric motors – which feature driveshafts passing through the motors themselves for compactness – are placed at each axle, producing exceptional performance and all-wheel drive, multi-surface traction. The high torque density and high-energy efficiency characteristics of the motors combine to deliver sports car performance, launching the I-PACE from 0-60 mph in 4.5 seconds.

Drive wheels	fwd	fwd
Wheelbase, in	106.3	106.3
Curb Weight, lb	2707	2989
Transmission	6M, CVT	6M, 7DCT

After a redesign last year, the Kia Forte adds two new sport trims for 2020: GT Line and GT. With the new additions, the 2020 Forte continues to offer driving fun, comfort, and convenience. The new GT sport trims feature race-inspired visual upgrades and added premium amenities. While models wearing the "GT Line" badge keep the naturally aspirated 147-hp 2.0L MPI four-cylinder engine and Intelligent Variable Transmission, the higher GT trim takes the Forte's performance and athleticism to the next level with a DOHC turbocharged 1.6L I-4 GDI engine. Output is an estimated 201 HP and 195 lb-ft. of torque.

$59,900

Kia K900

The special edition 2020 Kia Stinger GTS, based off of the 3.3L GT trim, debuts a new dynamic all-wheel drive system (D-AWD), developed to close the gap in behavior between the AWD-equipped and RWD-equipped Stinger GT. Stinger GTS's Drive Mode Select amplifies rear-biased dynamics and offers the choice of Comfort, Sport, or Drift modes. GTS exterior enhancements include exclusive premium orange paint color; genuine carbon fiber parts outlining the signature tiger nose grille, side mirror caps and side vents; GTS rear emblem; and center Stinger emblem on the trunk lid. Other Stinger models carry over into 2020.

$31,690 - $43,490

Kia Telluride

Engine	3.8L V6

Land Rover introduces the New Defender, the toughest and most capable Land Rover yet, combining a new body structure with world-first technologies and proven hardware. Configurable Terrain Response makes its debut in the 2020 Defender, allowing drivers to fine-tune the set-up of the vehicle to suit precise off-road conditions like never before. Alternatively, the intelligent Auto functionality of Terrain Response 2 can recognize the surface and configure the vehicle appropriately with no input from the driver. All-Terrain Progress Control and ClearSight Ground View also support drivers in extreme off-road situations.

Range Rover is renowned for combining peerless luxury and refinement with traditional all-terrain capability. A new 355-horsepower 3.0L in-line six-cylinder Ingenium gas engine delivers 365 lb-ft of torque that powers the new 2020 Range Rover from 0-60 mph in 5.9 seconds and to a top speed of 140 mph. Based around a new start-stop system, the new engine is paired with an electric motor that can harvest energy through deceleration and store it in a 48V battery. Advanced technologies, such as Continuous Variable Valve Lift, work alongside the mild-hybrid system to improve fuel efficiency and lower emissions.

Transmission	10A	ECVT/4A

The Lexus LC 500 and 500h carry over for 2020, with the addition of a limited-edition (100 units in the US) 2020 Inspiration Series. Blending the lines of the LC 500 with a classic color palette, this new limited-production LC aims to evoke a more refined, mature coupe without giving up any of its modern performance, technology and style. It shares the same 5.0L V8 delivering 471 horsepower as all other LC 500s. Its 10-speed automatic transmission sends power to the rear wheels through a standard limited slip differential that allows for a 0-60 mph time of just 4.4 seconds. A new 2021 LC 500 Convertible arrives Summer 2020.

$75,450 - $84,670

Lexus LS

	500	500h

Transmission	8A	6A	6A, 8A	8A

For the 2020 model year, the Lexus RC F coupe is lighter, more capable and more eye catching than ever before. A wide range of enhancements expands its performance envelope while updates to the overall design further refine the appearance of the broad-shouldered coupe. One of the last naturally aspirated V8s available in a luxury coupe gives the RC F a unique sound and feel. Now rated at 472 hp (+5) and 395 lb-ft of torque (+6), the 5.0L V8 is a core element of the RC F's personality. The Lexus RC F Track Edition is a limited production model new to the lineup for 2020. The 2020 RC now features Android Auto compatibility.

$44,150 - $56,460

Lexus RX

Transmission	6M, 6A

The new 2020 Evora GT replaces the Evora Sport 410 and Evora 400. Available in both 2 seat and 2+2 configurations, and with manual and automatic transmissions, the Evora GT is the latest in the Evora line and provides more power and torque from an already-celebrated sports car. The Evora GT is powered by a specially calibrated and tuned higher-output version of Lotus' supercharged, 3.5L 6-cylinder engine with integrated water-to-air charge cooler, producing 416 hp and 317 lb-ft of torque to give a 0-60 mph time of just 3.8 seconds. The automatic option has 332 lb-ft of torque and returns a similar acceleration time.

Sedan, Wagon, Coupe and Cabriolet body styles are offered; variants include 450/450 4MATIC, AMG 53, and AMG 63 S in addition to the new 350/350 4MATIC. On Coupe and Cabriolet models, the Premium Package is now standard, including Burmester® Surround Sound System, Blind Spot Assist, Heated Front Seats, Inductive Wireless Charging w/ NFC Pairing, KEYLESS-GO® Comfort Package, SiriusXM® Radio, and 12.3" Digital Instrument Cluster.

$67,900

Mercedes-Benz EQC

	400
Engine	Electric
Horsepower	402
Torque, lb-ft	561
EPA est. mpg	279 range
Drive wheels	awd
Wheelbase, in	113.1
Curb Weight, lb	tba
Transmission	1A

As the first Mercedes-Benz model to be launched under the new product and technology brand EQ, the EQC features an all-new drive system development with compact electric drivetrains at each axle. These give the EQC the driving characteristics of an all-wheel drive vehicle. To reduce power consumption, the electric drivetrains are configured differently: the front electric motor is optimized for best possible efficiency in the low to medium load range, while the rear motor adds sportiness. Together, they generate 402 hp and a maximum torque of 564 lb-ft. Editor's Note: the EQC's release has been delayed until 2021.

$124,500 - $147,500

Transmission	9A	9A

The 2020 Mercedes-Benz G-Class luxury off-road vehicle carries over after a new model last year. The G 550's available DYNAMIC SELECT allows adjustment of vehicle characteristics at the touch of a button. "G-Mode" off-road mode adapts the adjustable damping of the chassis and the steering as well as the accelerator characteristic, avoids unnecessary gear shifts and ensures optimum control and maximum off-road capability. The driving dynamics of the 2020 Mercedes-AMG G 63 are enhanced by its double wishbone independent front suspension, adaptive adjustable damping and AMG-specific off-road modes: Sand, Rock and Trail.

Unparalleled new features make the Mercedes-Benz Sprinter the smartest, strongest Sprinter yet. From the MBUX system to Mercedes PRO connect services, the new Sprinter is fully equipped with optional connectivity solutions that work harder and smarter for your business. The new Sprinter Cargo, Crew, and Passenger vans are available in both gas and diesel engines with 9G-TRONIC 9-speed or 7G-TRONIC Plus 7-speed automatic transmissions. Sprinter's innovative new safety features include Active Brake Assist, Active Distance Assist Distronic, Attention Assist, 360 degree Camera, and Traffic Sign Assist.

$22,845 - $30,695

Mitsubishi Eclipse Cross

Engine	1.5L I-4
Horsepower	152
Torque, lb-ft	184
EPA est. mpg	25/28
Drive wheels	2wd, awd
Wheelbase, in	105.1
Curb Weight, lb	3285
Transmission	8A

The Mitsubishi Eclipse Cross, the brand's dynamic crossover utility vehicle, enters the 2020 model year with increased availability of active safety features and the expansion of trim configurations to offer consumers an impressive combination of value, performance and dependability. Newly standard across all trim levels for 2020 is a two-wheel drive (2WD) variant. The cockpit-style interior of the Eclipse Cross continues into 2020 with a driver-focused interior that features high-grade materials, with SEL trims now including a black headliner and door pillars. Base LE trims now offer standard heated front seats.

$13,995 - $17,645

Mitsubishi Mirage/G4

	G4
Engine	1.2L I-3
Horsepower	78
Torque, lb-ft	74
EPA est. mpg	36/43
Drive wheels	fwd
Wheelbase, in	96.5
Curb Weight, lb	2073
Transmission	5M, CVT

The 2020 Mitsubishi Mirage hatchback carries over for 2020 with the addition of Automatic Climate Control standard on all trims. The Mirage G4 sedan adds a new LE trim for 2020, as well as a new front grille design. With a fuel economy of 36 mpg city/43 mpg highway, the Mirage is the most fuel efficient, gasoline powered vehicle in America. The Mirage G4 sedan ranks as the most fuel efficient in its class of compact cars, with a highway fuel economy of 41 mpg. Both vehicles are powered by a 1.2L MIVEC DOHC 3-cylinder engine. The small-displacement engine provides a harmonious blend of lively acceleration and efficiency.

$22,495 - $26,895

Mitsubishi Outlander Sport

		GT
Engine	2.0L I-4	2.4L I-4
Horsepower	148	168
Torque, lb-ft	145	167

The Mitsubishi Outlander carries over for 2020 with the addition of a new Special Edition (SP) trim and several updates. Forward Collision Mitigation with Pedestrian Detection, Lane Departure Warning and Automatic High Beams are now standard on SE, LE, SP, SEL & GT trims. A new lightweight Super All Wheel Control system with Active Yaw Control is now available. Driver-seat power lumbar support has been added for all trims, and the second-row seat shape has been changed to improve comfort. Outlander PHEV adds a new available Premium Interior Package to the GT trim, offering a more upscale appearance and increased ambiance.

$30,090 - $47,190

Nissan 370Z/NISMO

		NISMO
Engine	3.7L V6	3.7L V6
Horsepower	332	350
Torque, lb-ft	270	276
EPA est. mpg	19/26	19/26
Drive wheels	rwd	rwd
Wheelbase, in	100.4	100.4
Curb Weight, lb	3333	3457
Transmission	6M, 7A	6M, 7A

The 2020 Nissan 370Z is built on a foundation of sporty style and exciting performance. The sixth-generation 370Z features a balanced Front Midship platform, advanced 332-horsepower 3.7L V6 engine with Variable Valve Event and Lift and choice of 6-speed manual transmission with SynchroRev Match® or a 7-speed automatic transmission with Adaptive Shift Control. A new 50th Anniversary Edition package is offered exclusively on the 370Z Coupe Sport grade. The 2020 370Z NISMO features functional and fully integrated aerodynamic body pieces, which provide an aggressive appearance and optimize front and rear downforce.

$24,100 - $35,180

Nissan Altima

Engine	2.5L I-4	2.0L I-4
Horsepower	188	248
Torque, lb-ft	182	273
EPA est. mpg	28/39	25/34

Wheelbase, in	111.2	111.2
Curb Weight, lb	3208	3414
Transmission	CVT	CVT

Following a 2019 redesign, the 2020 Nissan Altima maintains its lean, architectural styling and confidence-inspiring driving performance. Altima again features available Intelligent All-Wheel Drive and exclusive Nissan Intelligent Mobility technologies such as ProPilot Assist. Enhancements for the new model year include the addition of Nissan Safety Shield 360 as standard for the Altima SR. Also new is the available Driver Assist Package for the S grade. The 2020 Altima offers two engine choices: the standard 2.5L DOHC inline 4-cylinder direct injection engine or available 2.0L VC-Turbo inline 4-cylinder.

$47,100 - $63,530

Nissan Armada

Engine	5.6L V8
Horsepower	390
Torque, lb-ft	394
EPA est. mpg	14/19
Drive wheels	2wd, 4wd
Wheelbase, in	121.1
Curb Weight, lb	5577
Transmission	7A

The Nissan Armada, the brand's flagship SUV, continues to show its strong credentials in the 2020 model as a true family adventure-ready vehicle. With comfortable seating for up to eight occupants and flexible cargo space, Armada offers best-in-class standard horsepower of 390 hp from its advanced 5.6L Endurance® V8 and best-in-class standard maximum towing capacity of up to 8,500 pounds for both 4WD and 2WD models (when properly equipped). In 2020, Armada is again available in a choice of four grade levels – SV, SL, Platinum and Platinum Reserve. Heated outside mirrors are now standard on all grade levels.

$19,290 - $37,150

Nissan Frontier

Engine	2.5L I-4	4.0L V6
Horsepower	152	261
Torque, lb-ft	171	281
EPA est. mpg	19/23	16/22
Drive wheels	2wd	2wd, 4wd
Wheelbase, in	125.9	125.9/ 139.9
Curb Weight, lb	3766	4225
Transmission	5M, 5A	6M, 5A

The 2020 Nissan Frontier remains a true mid-size truck. Just right for fitting in urban parking garages and tight backwoods trails, Frontier is also big enough – with a choice of standard and long wheelbase models – to handle large loads of cargo, work equipment or building materials. Every Frontier starts with a full-length, fully boxed ladder frame, then adds a choice of two powerful engines – 4.0L DOHC V6 engine rated at 261 hp and 281 lb-ft of torque, or a 2.5L inline 4-cylinder engine rated at 152 hp and 171 lb-ft of torque – mated to either a 5-speed manual, 6-speed manual or 5-speed automatic transmission.

$113,540 - $210,740

Nissan GT-R/NISMO

		NISMO
Engine	3.8L V6	3.8L V6
Horsepower	565	600
Torque, lb-ft	467	481
EPA est. mpg	16/22	16/22
Drive wheels	awd	awd
Wheelbase, in	109.4	109.4
Curb Weight, lb	3933	3865
Transmission	6AM	6DCT

The 2020 Nissan GT-R will come in three trim levels in most markets: GT-R Premium, GT-R NISMO and GT-R Track – along with the GT-R 50th Anniversary Edition. For 2020, the GT-R's 565-hp 3.8L V6 24-valve twin-turbocharged engine incorporates new turbochargers, which help increase the engine's low rpm response due to an abradable seal, providing tighter clearances and a 5% increase in efficiency. Overall, GT-R has a sharper engine response in and out of corners, making the driving experience more rewarding and richer than ever before. Every 2020 GT-R features a revised 6-speed dual-clutch transmission with a refined "R mode."

$18,870 - $21,120

Nissan Kicks

Engine	1.6L I-4
Horsepower	122
Torque, lb-ft	114
EPA est. mpg	31/36
Drive wheels	fwd
Wheelbase, in	103.1
Curb Weight, lb	2639
Transmission	CVT

The Nissan Kicks carries over into 2020. The versatile Kicks interior offers a sporting flavor – provided by a flat-bottom steering wheel, comfortable 6-way driver's seat, 4-way adjustable front passenger seat and 60/40-split fold-down rear seat. Kick's modern and simple "Gliding Wing" instrument panel design is dominated by a centrally mounted 7.0-inch full color display housing a comprehensive infotainment system. Every Kicks comes with a standard 1.6L DOHC 16-valve 4-cylinder with Continuous Variable Valve Timing Control System. Kicks is available in three well-equipped models – Kicks S, Kicks SV and Kicks SR.

$29,990 - $42,550*

*See dealer for updated pricing

The Nissan LEAF and LEAF PLUS carry over into 2020. The standard Nissan LEAF offers a 40 kWh battery pack with an EPA range of 150 miles. The 62 kWh battery and more powerful 160 kW motor in the LEAF PLUS combine to produce 214 horsepower and 250 lb-ft of torque, with an EPA range of up to 226 miles. Enhancing the LEAF and LEAF PLUS's driving experience is e-Pedal, which allows the driver to start, accelerate, decelerate and stop using only the accelerator pedal. LEAF continues to embody Nissan Intelligent Mobility, the company's approach to changing the way cars are driven, powered and integrated into society.

$34,250 - $41,540

Nissan Maxima

Engine	3.5L V6
Horsepower	300
Torque, lb-ft	261
EPA est. mpg	21/30
Drive wheels	fwd
Wheelbase, in	109.3
Curb Weight, lb	3552
Transmission	CVT

Following a refresh for the 2019 model year, the 2020 Maxima offers additional enhancements, including making Nissan Safety Shield 360, a suite of active safety technologies, standard across the entire lineup. In addition, the previous Premium Package content, including Dual Panel Panoramic Moonroof and Intelligent Around View® Monitor, is now standard on the Maxima SR grade. The 2020 Maxima is available in five models: Maxima S, SV, SL, SR and Platinum, each equipped with a 300-hp 3.5L V6 engine and performance-oriented Xtronic transmission. Available interior features include Rear Door Alert and Door to Door Navigation.

$31,530 - $45,330

Nissan Murano

Engine	3.5L V6
Horsepower	260
Torque, lb-ft	240
EPA est. mpg	20/28

Subaru Impreza

Engine	2.0L Flat-4
Horsepower	152
Torque, lb-ft	145
EPA est. mpg	28/36
Drive wheels	awd
Wheelbase, in	105.1
Curb Weight, lb	2974
Transmission	5M, CVT

The 2020 Subaru Impreza offers a spacious and refined cabin, improved ride comfort and high levels of crash protection. EyeSight® Driver Assist Technology, standard on CVT models, includes new Advanced Adaptive Cruise Control with Lane Centering, Pre-Collision Braking, and Vehicle Lane Departure and Sway Warning. Exterior updates include a revised front fascia and grille, updated headlights (Limited trim), updated taillights (5-door models), and a new Ocean Blue Pearl color. The Sport trim receives updated seat and door panel materials and interior trim changes, while Sport and Limited trims receive new wheel designs.

Wheelbase, in	108.1	108.1
Curb Weight, lb	3634	3884
Transmission	CVT	CVT

The 2020 Subaru Outback delivers the optimal blend of SUV capability and car-like ride and handling with standard Subaru Symmetrical All-Wheel Drive, Active Torque Vectoring, Vehicle Dynamics Control and X-MODE with Hill Descent Control. The legendary SUV offers all-new tablet-style 11.6-inch SUBARU STARLINK Multimedia systems with integrated center information display; DriverFocus™ Distraction Mitigation System; new Hands-Free Rear Power Gate; and new XT models with 260 horsepower. For the first time in Outback, available in-vehicle Wi-Fi hotspot provides smooth internet access via high-speed LTE™ communications.

$27,495 - $41,695

Subaru WRX/STI

		STI
Engine	2.0L Flat-4	2.5L Flat-4
Horsepower	268	310
Torque, lb-ft	258	290
EPA est. mpg	21/27	16/22
Drive wheels	awd	awd
Wheelbase, in	104.3	104.3
Curb Weight, lb	3294	3450
Transmission	6M, CVT	6M

With its 268-hp 2.0L direct injection turbocharged BOXER engine, Subaru Symmetrical All-Wheel Drive and Active Torque Vectoring, the 2020 Subaru WRX is a performance and value leader in the AWD sport-compact segment. The WRX comes standard with a 6-speed manual transmission and offers an optional performance automatic transmission, the Sport Lineartronic® CVT with 6-speed manual shift mode. The WRX is nicely equipped with standard features including remote keyless entry, automatic climate control, Incline Start Assist, 5.9-inch multi-function LCD, Multi-Mode Vehicle Dynamics Control and aluminum alloy pedal covers.

$37,895 - $49,765

Toyota 4Runner

Engine	4.0L V6
Horsepower	270
Torque, lb-ft	278
EPA est. mpg	17/20
Drive wheels	rwd, 4wd
Wheelbase, in	109.8
Curb Weight, lb	4525
Transmission	5A

For 2020, the Toyota 4Runner receives important additions, including Toyota Safety Sense P on all grades and updated infotainment that includes a larger 8-inch touchscreen, Apple CarPlay®, Android Auto and Amazon Alexa compatibility. The 2020 4Runner will come in a Venture Edition that features added utility and style, including a standard Yakima Megawarrior roof rack, gunmetal-colored 17-inch TRD wheels with black Toyota logos, 4Runner badging, outer mirrors, door handles and rear spoiler. The 2020 4Runner TRD Pro features a new grille design and adds Smart Key with Push Button Start and two additional rear-seat USB ports.

$26,985 - $30,590

Toyota 86

Engine	2.0L I-4
Horsepower	205
Torque, lb-ft	156
EPA est. mpg	24/32
Drive wheels	rwd
Wheelbase, in	101.2
Curb Weight, lb	2817
Transmission	6M, 6A

With 205 horsepower and sophisticated suspension coupled with an ultra-low center of gravity, the 2020 Toyota 86 delivers an authentic and athletic experience in a 2+2 sports coupe. The 86 Hakone Edition is based off the 86 GT grade and will be available exclusively for model year 2020. With Hakone green paint on the exterior, 17" twisted spoke bronze wheels and a black spoiler, it will have a choice of six-speed manual or automatic transmission and be powered by a 2.0L horizontally opposed aluminum boxer four-cylinder engine, fed by Toyota's D-4S Dual Injection System, delivering 205 hp and 156 lb-ft of torque.

$36,850 - $42,500

Toyota Avalon

		Hybrid
Engine	3.5L V6	2.5L I-4/ Electric
Horsepower	301	176
Torque, lb-ft	267	163
EPA est. mpg	22/32	43/44
Drive wheels	fwd	fwd
Wheelbase, in	113	113
Curb Weight, lb	3560	3638
Transmission	8A	ECVT

After an all-new model for 2019, the Toyota Avalon carries over with the addition of a performance-tuned TRD model. The 2020 Avalon TRD includes most standard content from the XSE grade, combined with exclusive TRD chassis enhancements and tuning. While it shares an engine with the rest of the lineup, thicker underbody braces increase torsional rigidity, and unique coil springs lower the vehicle by 0.6" for a reduced center of gravity. The aerodynamic body kit, which includes the front splitter, side aero skirts, trunk lid spoiler, and rear diffuser, blends a bold styling element and improves high speed vehicle stability.

$22,415 - $27,470

Toyota C-HR

Engine	2.0 I-4
Horsepower	144
Torque, lb-ft	139
EPA est. mpg	27/31
Drive wheels	fwd
Wheelbase, in	103.9
Curb Weight, lb	3300
Transmission	CVT

The Toyota C-HR gets an updated look for 2020 with a restyled front fascia, LED headlamps and new wheel designs. There's more value, too, with all three grades – LE, XLE and Limited – adding new amenities. Android Auto compatibility joins Apple CarPlay® compatibility as standard on all C-HR models, while LE picks up SiriusXM® Satellite Radio, XLE adds new seatback pockets and windshield visor extensions, and Limited gains a new 8-way power driver's seat and Adaptive Front Lighting System with headlamp auto-leveling. The C-HR comes equipped with standard Toyota Safety Sense P™, a multi-feature advanced active safety suite.

$24,295 - $35,000

Toyota Camry

			Hybrid
Engine	2.5L I-4	3.5L V6	2.5L I-4/ Electric
Horsepower	206	301	208
Torque, lb-ft	186	267	163
EPA est. mpg	29/41	22/32	51/53
Drive wheels	fwd, awd	fwd	fwd
Wheelbase, in	111.2	111.2	111.2
Curb Weight, lb	3241	3572	3472
Transmission	8A	8A	ECVT

The Toyota Camry carries over for 2020 with the addition of a TRD model and newly available all-wheel drive. The 2020 Camry TRD blends V6 performance with greater agility, precision and body control, all packaged with attention-grabbing TRD design and everyday drivability. It is powered by Toyota's renowned 301-hp DOHC 3.5L V6 engine teamed to an 8-speed automatic transmission with sport mode and paddle shifters. The Dynamic Torque Control AWD system first introduced on the RAV4 is now available on Camry and provides effective traction for inclement and slippery weather while minimizing AWD's typical drag on fuel economy.

$19,600 - $25,550

Toyota Corolla

			Hybrid
Engine	1.8L I-4	2.0L I-4	1.8L I-4/ Electric
Horsepower	139	169	121
Torque, lb-ft	126	151	105
EPA est. mpg	30/38	29/36	53/52
Drive wheels	fwd	fwd	fwd
Wheelbase, in	106.3	106.3	106.3
Curb Weight, lb	2910	3055	3050
Transmission	CVT	6M, CVT	CVT

The all-new 2020 Toyota Corolla sedan features both a gas model and the U.S.'s first-ever Corolla Hybrid. The Corolla sedan L, LE, and XLE grades use the 1.8L engine found in the previous generation, yet with more horsepower. The SE and XSE grades are powered by a completely-new 2.0L Dynamic-Force direct-injection inline four-cylinder engine. The new hybrid system combines a 1.8L four-cylinder gasoline engine with two motors/generators through an electronically controlled planetary-type CVT transaxle. Every grade of the 2020 Corolla has better combined fuel efficiency estimates than the previous generation.

$20,290 - $24,340

Toyota Corolla Hatchback

Engine	2.0L I-4
Horsepower	168
Torque, lb-ft	151
EPA est. mpg	30/38
Drive wheels	fwd
Wheelbase, in	103.9
Curb Weight, lb	3060
Transmission	CVT, iMT

The Corolla Hatchback was one of the first vehicles in the Toyota lineup to feature Apple CarPlay® compatibility and, for model year 2020, it will add Android Auto® compatibility as a standard feature. Additionally, SiriusXM® All Access Trial, previously an available option, will now be standard on both the SE and XSE grades. A black roof is now available with the following exterior colors: Blizzard Pearl, Oxide Bronze, Classic Silver Metallic, Smoked Paprika and Blue Flame. The SE grade also gets an enhanced cargo space option, which removes the spare tire and lowers the cargo floor, adding six cubic feet of cargo capacity.

$34,600 - $49,370

Toyota Highlander

		Hybrid
Engine	3.5L V6	2.5L I-4/ Electric
Horsepower	295	240
Torque, lb-ft	263	tba
EPA est. mpg	21/29	tba
Drive wheels	fwd, awd	fwd, awd
Wheelbase, in	109.8	109.8
Curb Weight, lb	tba	tba
Transmission	8A	ECVT

The 2020 Toyota Highlander brings new levels of bold, distinctive design to a foundation built on the safety, comfort, quality, durability and reliability of its predecessors. The fourth-generation Highlander offers a choice between a powerful V6 or new-generation hybrid powertrain, and Toyota Safety Sense 2.0 comes standard in all models. Highlander offers cutting-edge entertainment and connectivity through its intuitive and versatile multimedia system, including a new 12.3-inch (Platinum) or 8-inch (L, LE, XLE, Limited) touchscreen display and available new JBL Premium Sound System delivering a huge 1,200 watts of power.

$85,315 - $87,645

Toyota Land Cruiser

Engine	5.7L V8
Horsepower	381
Torque, lb-ft	401
EPA est. mpg	13/17
Drive wheels	4wd
Wheelbase, in	112.2
Curb Weight, lb	5815
Transmission	8A

For 2020, Toyota salutes the Land Cruiser's significance to the brand with the limited-availability Heritage Edition. Offered only as a 2-row, 5-seat model, the 2020 Land Cruiser Heritage Edition comes in a choice of Midnight Black Metallic or Blizzard Pearl and is exclusively outfitted with black leather-trimmed upholstery. All 2020 Land Cruiser models retain their off-road DNA with a full-time 4WD system and features like CRAWL Control and Multi-Terrain Select. A posh, feature-laden cabin makes Land Cruiser an ideal vehicle for luxuriously traversing the continent, or just taking the family to a movie.

$24,200 - $33,650

Toyota Prius

Engine	1.8L I-4/ Electric
Horsepower	121
Torque, lb-ft	105
EPA est. mpg	58/53
Drive wheels	fwd, awd
Wheelbase, in	106.3
Curb Weight, lb	3075
Transmission	ECVT

The 2020 Toyota Prius continues to be a leader in the hybrid world. Its Hybrid Synergy Drive system combines the output of a 1.8L 4-cylinder gasoline engine and two motor-generators through an electronically controlled planetary-type CVT, resulting in an EPA-estimated 56 mpg (L Eco grade). Front-wheel drive models use a lithium ion battery, while AWD-e versions employ a nickel-metal hydride (Ni-MH) battery, which provides excellent battery performance in cold-weather conditions. All 2020 models now come equipped with standard Toyota Safety Sense P and upgraded audio with Apple CarPlay® and Amazon Alexa compatibility.

$25,850 - $36,630

Toyota RAV4

		Hybrid
Engine	2.5L I-4	2.5L I-4/ Electric
Horsepower	203	219
Torque, lb-ft	184	163
EPA est. mpg	28/35	41/38
Drive wheels	fwd, awd	awd
Wheelbase, in	105.9	105.9
Curb Weight, lb	3370	3710
Transmission	8A	ECVT

The 2020 Toyota RAV4 adds the TRD Off-Road model to its lineup. RAV4 TRD Off-Road goes above and beyond with suspension, wheels and tires engineered specifically for rugged trail driving. Also new for 2020, all RAV4 models expand multimedia capability with Android Auto™ added to Apple CarPlay® and Amazon Alexa compatibility, and Toyota Safety Sense 2.0 is standard. The 2020 LE, XLE and Limited grades are available with a choice of gas or gas/electric hybrid powertrains, while the Adventure and TRD Off-Road grades only offer the gas engine. Both powertrains deliver an exceptional blend of performance and fuel efficiency.

$49,905 - $69,170

Toyota Sequoia

Engine	5.7L V8
Horsepower	381
Torque, lb-ft	401
EPA est. mpg	13/17
Drive wheels	rwd, 4wd
Wheelbase, in	122
Curb Weight, lb	5730
Transmission	6A

The Toyota Sequoia, with its robust body-on-frame construction, four-wheel independent suspension, generous ground clearance and powerful V8 engine, is already a very capable full-size SUV. For 2020, it adds a TRD Pro model featuring standard Multi-Mode 4WD (optional in other Sequoia grades), a chassis fortified by a TRD-tuned Fox shock absorber suspension, and an array of proven off-road equipment. Sequoia TRD Pro's long roster of standard amenities include Smart Key with Push Button Start, 8-way power driver's seat, power tilt/slide moonroof, and tri-zone automatic climate control with separate rear-seat controls.

$31,565 - $49,340

Toyota Sienna

Engine	3.5L V6
Horsepower	296
Torque, lb-ft	263
EPA est. mpg	19/27
Drive wheels	fwd, awd
Wheelbase, in	119.3
Curb Weight, lb	4505
Transmission	8A

The Toyota Sienna carries over for 2020 and remains the family-friendly van, with the choice of 7- or 8-seat cabin configurations, up to a massive 150 cu. ft. of carrying space, and a comprehensive array of available multimedia systems. It's available in five grades: L, LE, SE, XLE, and Limited. The Toyota Safety Sense P advanced active safety suite is once again standard on all grades. For 2020, a new Nightshade Edition is available on all SE and SE Premium trims, which adds a black sport mesh front grille, black door handles, black 18- or 19-inch wheels, a black spoiler, black mirror caps, and black Toyota badges.

$49,990 - $55,250

Toyota Supra

Engine	3.0L I-6
Horsepower	335
Torque, lb-ft	365
EPA est. mpg	24/31
Drive wheels	rwd
Wheelbase, in	97.2
Curb Weight, lb	3397
Transmission	8A

The 2020 Toyota Supra is available in two grades – 3.0 and 3.0 Premium – as well as an exclusive Launch Edition. The 2020 Supra features a 3.0L turbocharged inline six that produces 335 hp and 365 lb-ft of torque. The 8-speed automatic transmission delivers quick up- and downshifts and features paddle shifters for manual control when desired. Supra offers two driving modes, Normal and Sport. Sport Mode sharpens throttle response, increases steering weight, improves transmission shift crispness, has more aggressive active differential tuning and amplifies exhaust sound. Top track speed is electronically limited to 155 mph.

$26,050 - $46,665

Toyota Tacoma

Engine	2.7L I-4	3.5L V6
Horsepower	159	278
Torque, lb-ft	180	265
EPA est. mpg	20/23	19/24
Drive wheels	rwd, 4wd	rwd, 4wd
Wheelbase, in	127.4/ 140.6	127.4/ 140.6

Transmission	6A	6A, 6M

New tech, style, comfort and convenience features make the 2020 Toyota Tacoma more compelling and competitive than ever. The 2020 Tacoma offers six model grades - SR, SR5, TRD Sport, TRD Off-Road, TRD Pro and Limited - and 32 different configurations. All Tacoma models come standard with Toyota Safety Sense P, which includes Pre-Collision System with Pedestrian Detection, High-Speed Dynamic Radar Cruise Control, Lane Departure Alert and Automatic High Beams. The Tacoma TRD models feature extensive upgrades for 2020, including new grille designs, LED foglamps, LED/DRL headlamps, passenger Smart Key, and more.

$33,425 - $52,780

Toyota Tundra

Engine	5.7L V8
Horsepower	381
Torque, lb-ft	401
EPA est. mpg	13/18
Drive wheels	rwd, 4wd
Wheelbase, in	145.7/ 164.6
Curb Weight, lb	5300
Transmission	6A

For 2020, the Toyota Tundra lineup adds an additional TRD Pro model, enhanced multimedia and expanded comfort and convenience features. Powered exclusively by the 5.7L i-FORCE V8 engine that offers up to 10,200 pounds of towing capacity and a maximum payload of 1,730 pounds, Tundra is ready to tackle the jobsite, a weekend cruise to the lake, or a multi-state family road trip. The 2020 Tundra TRD Pro is offered in both Double Cab and CrewMax configurations, with CrewMax upgraded to feature a top-level multimedia system with JBL Premium Audio and Navigation. Smart Key with Push Button Start is also added for 2020.

$15,650 - $18,750

Toyota Yaris

Engine	1.5L I-4

See dealer for pricing and complete specs

The all-new 2020 Volkswagen Atlas Cross Sport 5-seater SUV is 2.8 inches shorter and 2.3 inches lower than the Atlas. At the front, the Cross Sport gets an upscale three-bar chrome grille and a distinctive new light signature that extends the width of the middle bar. An aggressive new front bumper and subtly sculpted hood complete the front end treatment. Inside, the Cross Sport receives upgrades over the Atlas, including a new steering wheel with more intuitive controls, available stitching accents on the door inserts and seats, and new high-tech features, like available wireless mobile charging.

Curb Weight, lb	3870	4135	4579
Transmission	8A	8A	8A

The 2020 S90 is Volvo's premium 4-door, 5-seat flagship sedan. It is built on the Scalable Product Architecture, Volvo's advanced modular vehicle platform that underpins all Volvo cars in the 90 and 60 Series. The S90 carries the proud and confident face of Volvo's design language, along with classic Volvo styling cues, including the iconic "Thor's Hammer" LED headlights, the new grille and Volvo Iron Mark, and the Volvo word mark on the rear. In the cabin, Volvo has raised the bar with details on the dashboard and instrument panel, including air blades that stand vertically on each side of the Sensus user interface.

$39,650 - $67,300

Volvo V60/Cross Country

	T5	Polestar
Engine	2.0L I-4	2.0L I-4/ Electric
Horsepower	250	415

Curb Weight, lb	3955	4202
Transmission	8A	8A

The 2020 V60 is Volvo's 5-door, 5-seat mid-size wagon. The V60 offers an advanced chassis, powerful engines, and a choice of Drive Modes for an engaging driving experience. It features seating for five, with a split-folding rear backrest that folds flat to increase cargo space. The 2020 V60 Cross Country features higher ground clearance, standard all-wheel drive and tough body cladding. Standard Hill Descent Control makes driving down slopes as easy and safe as possible. Standard City Safety technology combines automatic braking functionality and collision avoidance systems to keep occupants safe.

$51,450 - $60,500

Volvo V90/Cross Country

	T5	T6
Engine	2.0L I-4	2.0L I-4
Horsepower	250	316
Torque, lb-ft	258	295

Wheelbase, in	120.5	120.5
Curb Weight, lb	3913	4189
Transmission	8A	8A

The V90 is Volvo's 5-door, 5-seat large premium wagon, with the driving stance of a sedan and the cargo space of a crossover. It features five generous seats and a standard Panoramic Moonroof. The V90 Cross Country takes the elegance of the V90 and transforms it into an all-road wagon that delivers safety, practicality, comfort and performance. V90 Cross Country features a raised ride height and standard All-Wheel Drive, plus Off-Road mode to make off-road driving easier. Charcoal body cladding and front and rear skid plates help to protect the bodywork, while exclusive wheels complete the rugged look.

$33,700 - $55,000 est.

Volvo XC40

	T4	T5	P8 Recharge
Engine	2.0L I-4	2.0L I-4	Electric
Horsepower	187	248	402

Wheelbase, in	106.4	106.4	106.4
Curb Weight, lb	4759	4895	4730
Transmission	8A	8A	1A

The Volvo XC40 brings a new standard of safety to the small SUV premium segment. Safety and driver assistance features offered include Volvo's Pilot Assist system, the latest generation of City Safety, Run-off Road protection and mitigation, Cross Traffic alert with auto brake and the 360° Camera that helps drivers maneuver into tight parking spaces. For 2020, Volvo introduces the XC40 Recharge, the brand's first fully electric car and the first Volvo to feature a brand new Android Automotive OS infotainment system. It also features an all-wheel drive powertrain that offers a range of over 200 miles and output of 402 hp.

$40,795 - $72,045

Volvo XC60

	T5	T6	T8	Polestar
Engine	2.0L I-4	2.0L I-4	2.0L I-4/ Electric	2.0L I-4/ Electric

Curb Weight, lb	4105	4199	4638	4750
Transmission	8A	8A	8A	8A

The XC60 is Volvo's 5-seat mid-size SUV. For 2020, Volvo adds the new XC60 T8 e-AWD Polestar Engineered. The plug-in hybrid powertrain of the XC60 T8 Polestar Engineered combines a supercharged and turbocharged gas engine with an electric motor, for a combined 415 hp and instant acceleration. All-wheel drive provides more control and agility. Polestar optimization includes upgraded suspension and braking components. Front and rear grilles painted in high-gloss black, integrated tail pipes in black chrome, discreet Polestar Engineered emblems and lightweight Polestar Engineered 21"" alloy wheels create a sporty look.

$48,350 - $73,800

Volvo XC90

Curb Weight, lb	4327	4623	5105
Transmission	8A	8A	8A

The Volvo XC90's exterior design has been upgraded for the 2020 model year with new wheels, exterior colors and a modern new grill. The XC90 is available with a new six-seat or seven-seat configuration. New interior materials, including a wool blend, offer further options for personalization. The XC90 is powered by Volvo's Drive-E gas powertrain or Volvo's T8 Twin Engine, a gas plug-in hybrid, mated to an 8-speed automatic transmission. Volvo's City Safety technology, standard on all XC90 models, combines automatic braking functionality and collision avoidance systems to cover a range of potential accident scenarios.

DESIGNED TO INSPIRE

Please remember to properly secure all cargo.

Mazda CX-30 shown with Premium Package

THE ALL-NEW 2020 MAZDA CX-30

It's engineered like nothing else to feel like nothing before. The distinctive, sleek and sophisticated CX-30 is designed to ease into small parking spaces and transport you and your gear to wide-open ones. And it does it with class-leading standard horsepower[1] with the ingenious Skyactiv®-G 2.5L engine that's responsive and super-efficient.[2] The available i-Activ AWD® helps you drive confidently in any driving condition. Inside, the interior just may transport you before you press the accelerator. It's a study in essential elegance, enveloping you and your passengers with meticulously crafted design and comfort. The CX-30 also features the latest infotainment technology with Mazda Connect™ [3] and many of the advanced i-Activsense® safety features. The CX-30 is the ultimate in form and function performing together beautifully.

Mazda CX-5 Signature shown

Mazda CX-9 Signature shown

MAZDA CX-5
CONTROL & POWER REFINED

How do you improve a CUV that transcends the ordinary? You refine, so drivers can focus on the essential. It's why Mazda now offers a full complement of intelligent i-Activsense® safety features on every 2020 CX-5 model for greater confidence behind the wheel.

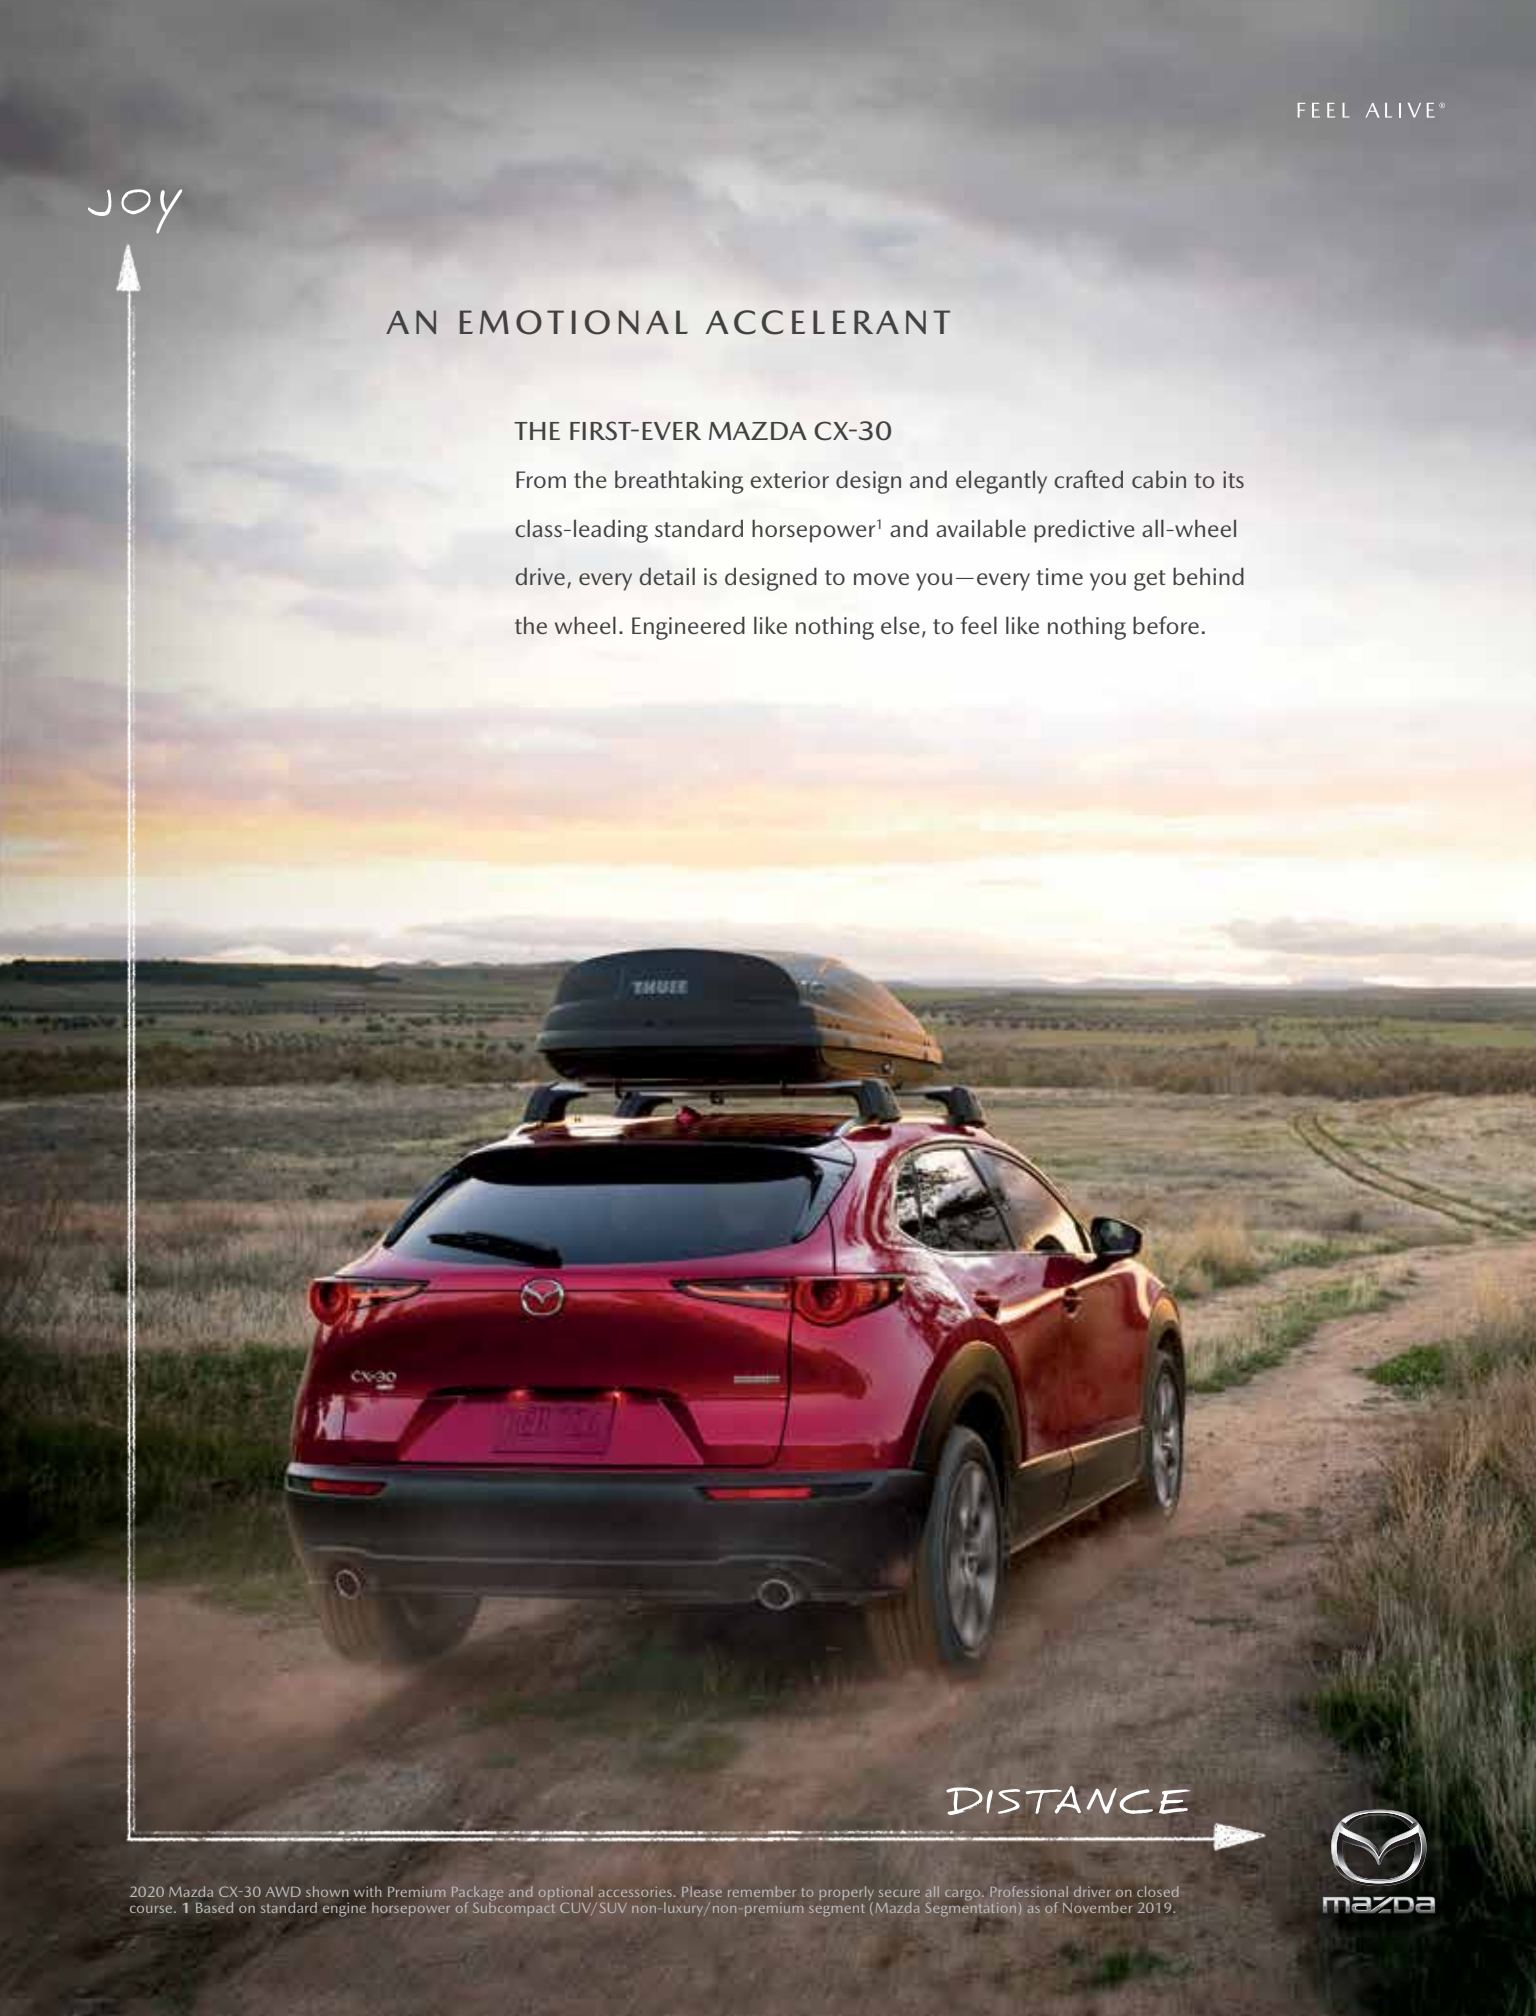
Of course, every element of the CX-5 engages you. The exterior radiates power and grace. The exquisite interior features distinct upholstery designs using soft textures and premium stitching. Select the available Skyactiv®-G 2.5T Dynamic Pressure Turbo engine and enjoy immediate acceleration. And to keep you connected, the Mazda Connect™ Infotainment System[3] features an 8-inch full-color touch screen display (on select CX-5 models).

MAZDA CX-9
CAPTIVATING PERFORMANCE

The Mazda CX-9 is a sophisticated three-row SUV that invigorates every journey. Its sculpted lines and elegant profile immediately command your attention. Inside, discover an abundance of premium touches, including natural materials and elegant finishes.

Powering this highly refined SUV is Mazda's potent Skyactiv®-G 2.5T Dynamic Pressure Turbo engine that delivers up to 250 horsepower[4] for immediate acceleration when you need it the most. With available i-Activ AWD,® the Mazda CX-9 helps you drive confidently on any road in any weather condition. For added assistance, an array of sophisticated safety innovations help improve your visibility and awareness of the road. No wonder the CX-9 elevates your drive every time you get behind the wheel.

1 Based on standard engine horsepower of Subcompact CUV/SUV non-luxury/non-premium segment (Mazda Segmentation) as of November 2019. **2** Based on EPA estimates for 2020 Mazda CX-30 FWD models, 25 city/33 highway MPG. Mazda CX-30 AWD shown with Premium Package, 25 city/32 highway MPG. Actual results will vary. **3** Don't drive while distracted. Even with voice commands, only use Mazda Connect™/other devices when safe. Some features may require cellular or Wi-Fi service; some features may be locked out while the vehicle is in motion. Not all features are compatible with all phones. Message and data rates may apply. **4** 250 hp with 93 octane fuel and 227 hp with 87 octane fuel.



AN EMOTIONAL ACCELERANT

THE FIRST-EVER MAZDA CX-30

From the breathtaking exterior design and elegantly crafted cabin to its class-leading standard horsepower[1] and available predictive all-wheel drive, every detail is designed to move you—every time you get behind the wheel. Engineered like nothing else, to feel like nothing before.

2020 Mazda CX-30 AWD shown with Premium Package and optional accessories. Please remember to properly secure all cargo. Professional driver on closed course. **1** Based on standard engine horsepower of Subcompact CUV/SUV non-luxury/non-premium segment (Mazda Segmentation) as of November 2019.

Highlander
DEAR FAMILY,
WITH ALL THIS ROOMY COMFORT,
YOU'LL FEEL CLOSER THAN EVER.
